Summary of War Situation On Various Battle Fronts

SIGNIFICANCE OF BULGARIA'S SURRENDER

The elimination of Bulgaria as a belligerent already has taken place. Here and there Bulgars may continue to fight against the allies for a little while because they are in isolated groups who have not received word of the

300,000 men, constituting the main forces representing the Teutonic combination in Macedonia. The front they held protected Austria-Hungary from invasion from the south and Turkey from invasion from the west. The complete destruction of this barrier involved in the surrender or disarming of all the Bulgarian forces and the surrender to the Allies for military purposes of all the railways and strategic points in Bulgaria, therefore, constitutes a grave peril for Constantinople and for Sofia, Pest and Vienna. These capitals previously were in a state of desperation, owing to war exhaustion, and it is doubtful whether they have either the will or the material resources to meet the danger. The Allies in Palestine are at the doors of the important garrisoned towns and the

again entering the field against the Teutons. We well may expect Turkey to join Bulgaria in deserting Germany during the next week or two. Austria-Hungary may be a little slower making up her mind to let Germany face alone the armed might of outraged civilization, but a smashing drive by the Italian army should complete the persuading process before the end of the

ago Vice-Chancellor Von Payer said the "strong and courageous in the consciousness of our invincibility, WE LAUGH AT THE IDEA THAT WE SHOULD FIRST PENITENTLY ASK FOR MERCY before we are admitted to peace negotiations." Today he has resigned and so has his master, Von Hertling. The Prussian Minister of War also is out.—Toronto Star.

Daily Intelligence.

German soldiers and German people have put the whole abandoned nation of modern Germany on a pedestal of the past. "Whatever it is, that shall be our ideal," says the Kaiser. "We have seen together and should grow together." The Kaiser's words are being working all the time. The Kaiser's words are being working all the time. THE EVENING CLASSES.
If knowledge is power and power can be turned into wealth there is a splendid opportunity for the young workmen and workwomen of Belleville to acquire a wealth of knowledge at the night classes soon to be started at the High School of Education in this city. It is congratulated upon its enterprise in providing for night classes where practical and technical education can be obtained by ambitious men and women who are engaged in business pursuits during the day. The classes will open on the evening of October 8 at the High School and among its various courses of instruction can obtain full particulars from Principal MacLaurin any evening until the High School between eight and nine o'clock. Classes will be organized in Mathematics, Electricity, Chemistry, Mechanical Drawing, English, Domestic Science, Dressmaking, Millinery and Commercial subjects.

Time spent in acquiring knowledge at these evening classes will prove an excellent investment.

HOW TO DODGE THE "FLU."

Many people are sick in Belleville with colds. Influenza or gripe are common—Spanish) Russian diana everyday gripe, common to this time of the year and aggravated by the wet and cold weather. That is known as Spanish "Flu" is very prevalent in the United States in getting a flu epidemic. It would be better to prevent it than to cure it with an attack of gripe or influenza. It is a fact that the "Flu" and take precautions accordingly for their own good and good of others. In Massachusetts, where the epidemic of "Flu" is still ravaging the State, Health Department has framed the following rules for the guidance and safety of the people, and the same rules could be followed to advantage here:

All those who are ill with symptoms of beginning cold, chills, fever, headache or headache should go to bed and call for medical advice. That in all instances these cases be isolated, and that they should be kept out of doors, walk or ride making the disease or prevent its spread to other members of the household.

Use all unnecessary words, such as in theatres, movies, crowded street and railroad cars, also all private and semi-private gatherings. Keep out of doors, walk or ride making the disease or prevent its spread to other members of the household.

It is important for everyone, especially the attendants upon the sick, to get at least seven hours sleep and plenty of rest, clean food, and that their strength, may be kept equal to the demand.

It is essential that all those coming in contact with the sick should wear gauze face masks covering the nose and mouth with at least four thicknesses of the cloth. These masks should be changed at least once and either burned or boiled for five minutes. It is equally important to wash the hands carefully after handling the sick. Those who fall ill with this disease have come in contact with a patient, such as dishes, clothing, bedding, etc. All persons should wash their hands immediately before and after such contact.

Avoid all sneezing and coughing individuals. If necessary to sneeze or cough cover the face with your handkerchief. Refrain from eating at restaurants where dishes are either perfectly sterilized or not sterilized. There is grave danger of conveying infection from this source as well as from soda fountain glass for delectable cups and glasses, or be sure all dishes and spoons are sterilized by being boiled.

CRISP COMMENT

There is good medicine for the blues—most worries can be scrubbed with a toothbrush while the sun shines—and some sort of the boy, says the Philosopher of Thrift.

The Canadian Government has raised a price for the creamy butter to be delivered for export. The policy of price control seems to be necessary to protect consumers, unless they are Canadians—Toronto Globe.

Two weeks are a short period in a war of more than four years, but what the United States in the past two weeks has done in progress of about three of the last years. The next two weeks are likely to see the beginning of the general evacuation of France by the German—Mail and Empire.

Laurier will be with us next week—helping to win the war by reorganizing the party that would lead the Canadians without realizations in the present magnificent efforts to drive the Hun out of France—Toronto Globe.

An officer of the R.A.F. at Long Beach took a spin on the Hamilton Highway last Sunday, and he reported that the road was in excellent condition on "paved" Sundays. His accumulated troubles including pump failure, a face decorated with a red nose and an arched for spending time in the past two weeks in a hurry to attend a church parade, and the next day, after warning the officer that his greatest effort was not spending his day displaying his government's road.

When the war hit the city restaurants it hit their hard—hit them below both of their patinas with smaller portions and larger prices, which have been obtained in an investigation by the Dominion Cost of Living Commission into the price of food in this city. The cost of living is now at present running in portions of one and one-half cents makes a gross profit of 21 per cent or a percentage gross profit of 180 per cent. Another gross profit of 70 per cent profit on bacon, with beef and veal showed gross profits of 72 and 69 per cent, respectively. Such gross profits are gross gains from the slaughter and packing of the animals.

Guiton Bunches are being observed by city and town motorists, the latter better from rural sections. Those who care a little whether a motor ambulance, amputation and food lures get enough gasoline to keep them going as well as to keep them as well as they can. Bunches are not unfrequently with, and that public restaurants will likely hold on with disastrous results to Sunday pleasure riders—and there would be no room being attended by the police.

His head was sinking over matters

his brain, and the sudden knowledge of

the real value of things came upon

him. He was drifting into this

world, when he had begun by dis-

happier journey.

She had examined him to her's

and he might have an opportunity

of whispering dangerous words into

her ear—words which it were not

good that a man should speak to his

neighbor's wife.

He had made his way to the gallery

in this strong, purposeful mood, but

that had happened there of months

him after his opinion of himself. His

had shown himself in the light of such

a loyal wish, such an outrageous sym-

ptom that he felt all his former sym-

ptoms of her with regard to himself

to have been wrong and immeasurably

small.

He desired a horse whiplash, and

he told himself, for having done so

ought to settle him into loving her

rather than the skin of some stolen

skins of swags or because she

thought him to be a strong man.

"Thank God I am a strong man,"

he murmured, "strong enough to crush

even such an unworthy man as I am."

But it was not his strength that

helped him to be so strong. He was

strong because he was strong. He was

As he spoke the words the gallery

CHAPTER XIV.

Rupert looks like a lion.

His blood was now crystallized

himself. He walked up towards Che-

ster with the may happen, when

which the other could not help car-

ing him in his heart—the others gave

up their criticism—leaving him and

cheerfully on the back of a chair, and

said in a low, cold voice.

"My cousin was not in the least to

blame for—what you saw. I com-

pletely understood an unpar-

donable case, perhaps in attempting to

kill the Duchess. I had no reason

to believe that such a course would

be welcome."

He drew himself up as he spoke, and

glanced at Chester steadily, then he

added with a certain

of the chair.

"Do you think my hand?"

Chester shook his head.

"Of course I don't," he replied.

"Theodore, I think I understand some-

thing of the Duchess's character by now

to realize in what spirit she would re-

spond."

"Oh, I don't," Rupert inter-

rupted him, in a sharp, harsh tone.

Then he laughed. "If I am glad you

are the real nature of my cousin,"

he added, "this is not understood by every-

one."

He heaved again, and bent as im-

patiently with his fingers upon the

back of the chair.

"The Duke won't hear of my re-

viving the fact of his private secretary."

"I don't," Rupert said, "I will

warded all around, don't you?"

"What a fool—a what a hopeless

person can always make a man if

he is not a fool himself," he said. "I

think his life and his son. Don't let a

man be a fool of you." He addressed

himself to Chester with his air of a

fool. "I know you are married, and

I believe your wife is extremely

"You are needlessly impatient."

Chester spoke with some fervor, but

it served him at the time that Rupert

did not seem to be defensive, but was

rather calm. It was his quiet and re-

framed manner that won against the

prisoners. "You mean to kill

me, because you have tried to get up

a list and strong situation with the

Duchess that I want to take in your

place," Chester continued, "and you

are warning me of the grave."

Can you see me now? I am not the

least afraid. I'm not the type of

Railways At The Front

RAILWAYS have played a prominent part in the operations in France and Belgium ever since 1914. The Canadian Overseas Railroad Construction Corps, one of the best units engaged in the war, and in doing a large number of C. P. R. engineers in the construction work, and hundreds of C. P. R. workmen among the rank and file have carried all the praise showered upon it by Allied officers "who have been" and "are."

Railways had to be laid here and there to transport troops from the best areas to the front line, or at least as close as possible to the trenches. Narrow gauge roads had to be laid down rapidly and hidden from view as much as possible so that enemy airmen would not locate them and destroy them.

Much of the work of laying railroads in France and Belgium had to be carried out under fire, and the railway men had to give their share of gall in the deadly fight.

The writer had the honor and privilege of training the best railroad men in the Canadian Construction Corps.

As a bunch of men as any soldier would wish to see were gathered together in Montreal in 1915 to fit the new made in the original unit, which had crowded several weeks before.

These men follow come mostly from the west, principally British Columbia, and although not looking quite soldier-like in their civilian clothing when they reached Montreal, once uniformed and equipped, were good to look upon.

When out marching on the streets of Montreal these "soldiers" were greatly admired, for nearly every man was a decorated soldier. The entire construction corps was the subject of the Mayor's Laid Off, the senior sergeant a retired major of a New Brunswick unit. One of the private was a former commandant of the South African Constabulary Force. Many of the men were active veterans of the Boer War. Eventually they were shipped over

to England and in due course reached their unit in France—to work, and fight, if necessary.

Canadians who have served in France appreciate the fine work of the Canadian railroad men there. There was a great deal of work to be done, and the men who did it were the officers and men who had made good "over there" their loyalty to the structural value of having well directed roads for purposes of transport—up it men or supplies.

Trucks had to be laid for ordinary railroad traffic; trucks had to be laid for moving heavy guns from point to point rapidly so as to destroy the

enemy's artillery; trucks had to be laid for the numerous narrow gauge roads which have been sent a bomb to target in and out of the line.

However an officer or man was called to report at a certain point, he is up to the line or back to a base or school, he would figure out himself where he could "pick up" a narrow gauge line and get there quickly instead of jumping water lorries for miles and transferring at many points during the trip.

On many occasions a strip of road had to be laid for several miles and in the open and enemy aeroplanes would locate the work and drop a few bombs which would destroy, in a few moments, the hard work of weeks.

June Air in January

Most any furnace will produce a dry heat—the kind used to dry lumber in a kiln.

But that kind of heat will ruin the health of your family and destroy your furniture.

What month is the balmy, healthiest, sweetest, most delightful of all the year? June, of course.

The Sunshine Furnace has been developed, developed and perfected to give you home in January the same quality of air that you breathe out of doors in June.

The Sunshine Furnace by warming fresh air and charging it with the necessary amount of moisture, not only warms but ventilates your home with pure, healthful air every moment of the day.

Above the fuel door of the Sunshine Furnace is a water pan designed with scientific care to vaporize into the warm air the precise quantity of moisture necessary to the health and comfort of your family.

In the Sunshine period home there are no dry, hacking throats, no burning or wrinkling skins, no dust or grime, no stuffy, heavy, unhealthy winter air.

Victory Bond Local Organization Complete

HASTINGS COUNTY LOCAL COMMITTEE SAME AS LAST YEAR
OBJECTIVE TO BE LARGER—W. B. DEACON WILL AGAIN ACT AS CHAIRMAN.

The campaign which will be waged in dollars of Victory loan and this county will be started the first of last year. It is expected that the goal will be to exceed the goal of last year. No stone will be left unturned to make this, which will probably be the last call on the resources of Hastings County, the largest and best effort of the citizens towards the winning of the war. Every citizen of the county of Hastings is expected to do his bit in assisting the organization in every way possible, as cooperation is essential and without this the success of the campaign will be impossible. The organization of the citizens will be complete by the first of last year. Hastings County must not lag behind other counties. In this great war effort.

Mr. W. B. Deacon and Mr. Wm. L. McKeown have undertaken the publicity of the campaign, will go to Toronto tomorrow for the meeting of the chairman and vice-chairmen and publicity managers of the province of Ontario. It is expected that as a result of this meeting many new ideas will be forthcoming and the success of the campaign will be enhanced and more completely understood throughout the county.

W. B. WHITE.
Minister of Finance.
Mr. H. W. Ashmun has been appointed to act as secretary and as secretary of the Hastings County organization to complete campaign.

Mr. H. D. Deane, the county organizer, has been in the city for the past week to arrange details of the campaign, he has spoken very effectively on all of the response he has received from Hastings County. He is expected to return with the success of the drive. Last year the county of Hastings was one of the best in the province.

CHAPTER XX—Continued

He opened his eyes as though he were in a dream, and he had at least that he was free again, as first-but how could that be? He noticed the black stars he saw; they were stars, he thought, but he did not know how to recognize them. "Say, I'm not here," he said, and his voice seemed to come from a long way off.

He was in a room, as a child would understand that is the matter with him. "It hurts," he repeated, then he moved the heavy lid closed over the injured eye.

"Darling, I know it hurts," whispered the voice, and he could hear the pearly, and the laughter to tell the reason of her husband's pain was wrong upon her lips, and then she told him, to mislead him to get his mind off the pain.

Suddenly, very softly, she bent and kissed his cheek. A delicate air came over him, and he could feel the softness of her lips. "You have a very nice mouth," he said, and he felt under her hand; but he was not used to her touch.

"You have a very nice mouth," he said, and he felt under her hand; but he was not used to her touch. "You have a very nice mouth," he said, and he felt under her hand; but he was not used to her touch.

Take Two Years To

Repair Lens Mirrors

PARIS, Oct. 12.—(Via Havas Agency, Constantinople, 12.)—It will take two months to two years before it will be possible to repair the lens mirrors from the main in the Zeiss works, which the Germans damaged to the point of their ability before their retreat from this city, an inspection of the situation properly revealed, it is estimated that it will take three years to restore the normal production of the plant.

The inspection was made by Alfred Schuler, the Minister of War and Louis Locheux, the Minister of Agriculture, together with M. Parier and M. Baudy chairman and vice-chairman, respectively, of the committee on the part of the Chamber of Deputies. They visited the plant and the adjoining village of Sigmaringen and Tübingen. They found the situation in these localities, and although every possible measure is being taken to restore the operating plants by the state, it will be two years, it is estimated, before the situation can be cleared of war. The situation has been completely destroyed, the destructive process having been carried to the most extreme limits.

On Christmas, southeast of Lens, the Germans had blown up the mine before leaving. On the 10th thousand tons of Lens the miners found no one left standing, the houses having been completely razed.

INVEST TO INSURE VICTORY.

"The surplus of weekly or monthly earnings over necessary expenditure must be invested,"—Henry Law.

Made with all the authority that attends an opinion on finance, expressed by the British Chamber of Commerce, this statement commands general attention.

To save money merely in order to hang on to it does you no good. More saving is bad to buy your money in the worst and thus impair its usefulness. It is depriving your country of effective activity.

First to invest—this must be the purpose of all war economy. Invest that savings may increase themselves. Invest to insure victory.

Medical Man Urges Use of Face Mask

TORONTO, Oct. 12.—The use of the face mask in combating the spread of influenza epidemics is advocated by Dr. Murray McPherson, 180 Bloor street, who has just returned from a trip to the various centres in the world where the disease is prevalent. This mask, which is in the form of a handkerchief, is made of gauze or cheesecloth, and is placed over the nose and mouth and fastened at the back of the head. It is to be worn by everybody on the streets of the health authorities and is considered to be a second line of defence against the spread of the disease.

"When people move or cough or sneeze, the disease germs are not floating in the air, and are consequently killed by the mask," explained Dr. McPherson.

Alcohol As Medicine

The Government should take immediate steps to allow the free use of alcohol during the present crisis. The use of alcohol is a very important factor in the treatment of the disease. It is a very important factor in the treatment of the disease. It is a very important factor in the treatment of the disease.

It is one of the American cities visited by Dr. McPherson all places of the world are closed by order of the authorities. Public meetings are also prohibited, and people are not allowed to congregate in large numbers. In Philadelphia, where the disease has been very serious during the past week, all the public establishments are closed. The use of alcohol is a very important factor in the treatment of the disease. It is a very important factor in the treatment of the disease. It is a very important factor in the treatment of the disease.

OPEN HUNTING SEASON IN THE HIGHLANDS NEAR THE PROSPERITY GOLF

Probably the best hunting district in America are located in the Highlands of Ontario and that section of the Province opened up by the Trans-Canada Railway. This immense virgin area offers unlimited opportunity to the hunter for moose and deer. The open season for the Highlands of Ontario District is from Nov. 1, 7 A.M. to 11 P.M., 1918, to November 15th, both 1918.

Avoid Price Extremes in Buying Shoes

THE measure of economy in buying shoes is the service you get per dollar of expenditure. It is waste to buy shoes which were made to sell at a very low price and it is equally unwise to pay extremely high prices. Beyond a certain point it is not possible to increase the practical value of a shoe, and when you pay more than a fair average price you are probably paying for "filler."

So we say to you: "Keep them off the road. Don't pay less than \$6 for a pair of shoes, and expect good value. On the other hand, don't think it is necessary to pay more than \$10 or \$12 at the outside. You probably can judge values for yourself if you will buy for service rather than appearance merely, and if you will be guided by the dealer's knowledge and experience. A quicker and easier way, however, is to look for the manufacturer's trade-mark on the shoes you buy. It is the best guarantee of good value, for the manufacturer's business reputation is behind it."

Prevent the "Flu"

by wearing

Dr. Chase's Menthol Bag

SINCE 1910 influenza has periodically swept over the known world. The last big epidemic in this country was in 1918, when almost every person in every home brought down with it. The present form, known as Spanish "Flu" because it started in Spain, seems to be a most fatal variety on account of the quickness with which it develops into bronchopneumonia.

Hence the wisdom of preventing infection by every means possible, and our suggestion is to "Wear a Menthol Bag."

We have arranged for the manufacture of thousands of these Menthol Bags, and while they shall give them away to the first persons who send in the coupon printed below.

These bags are placed on the chest outside of the underwear, and the heat from the body causes the menthol fumes to rise and mingle with the air you breathe, thereby killing the germs and protecting you against Spanish influenza and all infectious diseases.

It was always the aim of Dr. Chase to serve his fellow-men by the prevention of disease wherever possible, so that this gift is in line with the policy which he established.

In his large Receipt Book Dr. Chase devoted five pages to the treatment of influenza, and of his medicines on the market Dr. Chase's Syrup of Eucalyptus and Turpentine and Dr. Chase's Nerve Food are used to splendid advantage in fighting this malady.

The Lined and Turpentine should be used freely just as soon as there is any tendency for the throat and bronchial tubes to be affected.

Dr. Chase's Nerve Food is used to strengthen the action of the heart and aid in the restorative process.

The great secret of keeping healthy as well as of regaining strength after illness is by keeping the blood pure, rich and red.

Red blood is the greatest of medicines, for no disease can make any great headway so long as the blood is in condition to restore the wasted tissues.

In Dr. Chase's Nerve Food are found the vital substances which go to the formation of new, rich blood. It fortifies the system against attack and hastens recovery. You can buy half a dozen boxes from your druggist for \$2.75, but be sure to see the portrait and signature of A. W. Chase, M.D., on the box you buy.

But in the meantime send for a "Menthol Bag" and do all you can to protect yourself against the Spanish "Flu."

Orlando Dead Laid at Rest

Island of Islay, Scotland, Oct. 12.—American dead from the transatlantic steamer have been buried in the little churchyard at Kilmahan, in wide graves accommodating twenty bodies each.

The church was too small to hold more than a hundred bodies, and the bodies were placed under improvised shelters in the churchyard.

As rapidly as the bodies can be assembled from now on, they are being buried in groups of twenty in an open field in the side of a cliff overlooking the sea.

A memorial service was held in the church by the Rev. Donald Grant, who, with Sir. Grant, were leaders in the funeral service.

Referring to the American and British officers, the Islay authorities said a large number of islanders attended the ceremony. After the simple was first over the graves.

Being to the heavy burial the extreme difficulty of carrying the bodies of the dead, the progress of the searching parties is slow, and it may be many days before the bodies of all the victims are recovered.

The task of carrying the dead over the rough ground from distant point to Kilmahan is proving a difficult problem. No four-wheeled vehicles can be used and the bodies are being transported on carts.

Tidal Wave Wipes Out Porto Rico City

WASHINGTON, Oct. 12.—The tidal wave which followed the earthquake in Porto Rico added to the death toll and the devastation, the American Red Cross was advised today by cablegrams from San Juan. The city of Mayaguez, the third largest in the island, practically was destroyed by the ground of water, while the town of Aguadilla was badly damaged.

Other towns on the western part of the island were damaged by the earth shocks, and the death toll is placed more than 100, with probably 300 injured. Thousands of families are homeless and the property loss is estimated at from \$2,000,000 to \$3,000,000.

King Bonverdi II.

A Legend of a Lost Kingdom.

By A. MITCHELL.

Since the dawn of time the map of Europe has been changing. Many nations have been a nation the very next day and died the next day. It is supposed to have occurred a part of the world's population. There is a legend embraced with this world of myth with many centuries. There was a king he had been found among the mountains of the Alps.

There was a king of the country—the very same—who was as content as a pig in a sty. He was a simple man, his territory, supposed to have been there, where the mountains were very high. He was a simple man, his territory, supposed to have been there, where the mountains were very high.

REMEMBER THE SOLDIERS.

The soldiers of the Depot Battalion quartered at the armories are practically guaranteed as a precautionary measure on account of the epidemic of influenza and must be having a rather dull time of it confined to barracks, although they are to be very cheerful under the circumstances. There would seem to be an opportunity for patriotic citizens to donate reading matter, magazines, etc., to help relieve the tedium of confinement, and concerts no doubt could be arranged by local entertainers which would be appreciated by the rank and file.

FIGHTING THE EPIDEMIC.

The prompt and vigorous action taken by the Health Board of London to combat the prevailing epidemic is to be commended and great good is bound to result from the effective measures taken. The public Health Board has been successful in the only effective action taken by the Health Board of London to combat the prevailing epidemic is to be commended and great good is bound to result from the effective measures taken. The public Health Board has been successful in the only effective action taken by the Health Board of London to combat the prevailing epidemic is to be commended and great good is bound to result from the effective measures taken.

SOLDIERS OF MERCY.

The battle being fought against the epidemic of Spanish influenza by the physicians and nurses is worthy of all praise. Night and day they expose themselves to the danger of falling victims themselves to the disease as the result of over-exertion, lack of sleep and consequent weakening of the physical powers of resistance. A number of doctors and nurses have died from the disease in Ontario and many are ill in the General Hospital at Toronto. At the Western end of the epidemic, several nurses at Bellevue Hospital are in a critical condition and two have died.

The heroism of the physicians and nurses in this epidemic may not be commemorated by the State of New York, but the medical profession should be hailed with a greater dignity and respect in the hearts of the people for such unselfish sacrifice and bravery in the face of great danger.

THE SOURCE OF SUPPLY OF PURE BRED HORSES CHANGING

TYPES OF HORSES BRED ON AN ALBERTA FARM

CANADA has the largest horse-breeding industry in the world. It is estimated that in 1917, the value of horses bred in Canada, Alberta, was \$1,000,000. The industry is concentrated in the western provinces, particularly in Alberta, where the climate and soil are ideal for raising horses. The industry is growing rapidly, and it is expected that the value of horses bred in Canada will reach \$2,000,000 in 1918.

One of the most successful breeders in Canada is Mr. L. A. McLeod, who has been breeding horses for over 20 years. He has a large farm in Alberta, where he breeds a variety of horses, including draft horses, lighter breeds, and foals. Mr. McLeod's horses are known for their quality and are sold at a high price. He has won many awards for his breeding work, and his horses are in demand all over the world.

The creation of a breeding industry in Canada is a result of the demand for horses in the United States. The United States has a large army and navy, and it needs a large number of horses for transport and other purposes. The demand for horses in the United States has led to the development of a breeding industry in Canada, which is now one of the most important sources of supply for the United States.

One of the most important factors in the success of the breeding industry in Canada is the quality of the horses. The horses must be pure bred and of high quality. The breeders must have a good knowledge of the industry and must be able to select the best horses for breeding. The industry is growing rapidly, and it is expected that the value of horses bred in Canada will reach \$2,000,000 in 1918.

Give sure results—and make most delicious cake and pastry—because it is pure and white. **CONTAINS NO ALUM**

The war-tax has practically doubled the price of the best grades of matches, and has *more* than doubled the price of the cheaper kinds. And the tax adds nothing to the value of the matches. Light your pipe with the tax, yet you pay for a poor match as on a good one.

EDDY'S MATCHES

have more than sixty years of experience behind them. Among the 30 to 40 different brands made in the factory with an output of 70,000,000 matches a day, there is one for every purpose. And such is the best of its kind that our customers can't do without it. Insist on Eddy's Matches and get real match value for your money. See that Eddy's name is on the box.

Will Workers Wanted To Help Fight the Epidemic in the Cause of Humanity

PROMPT ACTION NEEDED TO STOP THE SPREAD OF INFLUENZA AND PNEUMONIA—MANY ARE SUFFERING AND NEED ASSISTANCE—CITIZENS WITH TIME AND INCLINATION TO SERVE HUMANITY CAN PERFORM USEFUL PUBLIC SERVICE—ARE YOU WILLING TO HELP? IF SO, REPORT AT ONCE TO HEADQUARTERS—WOMEN, MEN, BOYS AND GIRLS.

It is reported that many families in Belleville are ill with the Spanish influenza—every member of the family sick in bed with no one to wait upon them, administer medicine as prescribed by the family physician, and wait upon the sick.

Physicians and trained nurses are working night and day, but unless volunteer assistance comes to their aid they are in great danger themselves of sickness and death from the disease aggravated by overwork. The hospital is crowded with patients and several of the doctors and nurses are sick—up to Saturday two nurses had died from pneumonia, their natural resistance no doubt broken down from overwork—heroic self-sacrifice in the cause of humanity.

The city Board of Health is making every effort to fight the epidemic and needs the assistance of all citizens, men and women, to prevent the spread of the malady as much as possible and to try and stamp it out. An emergency hospital will be opened and volunteers help when available sent to families in need of assistance.

Called to Service. A Citizens' Committee has been organized to co-operate with the local Board of Health in the formation of a branch of the Ontario Emergency Volunteer Health Auxiliary, under the authority of the Provincial Government and under the direction of the Provincial Board of Health. Volunteer nurses will wear the official badge—"ONTARIO S.O.S." (Sister of Service) and receive full instructions.

The call for service is urgent and includes: Women, Men, Boys and Girls, to act as nurses, messengers, etc. Use of private motor cars. Donations of jellies, jams, fruit, etc., and cotton cloths. Boy Scouts, Girl Guides, Campfire Girls, and others can render useful service.

Y. M. C. A. HEADQUARTERS. All willing to assist should report at once to Headquarters, Y. M. C. A. Building. A. McGie, Chairman Board of Health. F. F. Brockel, Secretary Citizens' Committee. Miss Frazer, Assistant Secretary. Y. M. C. A. Phone 413. Secretary's Residence Phone 313. Send all donations to Y. M. C. A. Building.

Epidemic Conditions Show Some Signs of Improvement

The influenza epidemic of yesterday from the same place in comparison with today is a telling statement. It is a telling statement. It is a telling statement.

Dixon, of Ottawa, was the leading executive worker in the National Anti-Graft Association Work Campaign for one million dollars in the city a point at the Hotel Quatre. Mr. Dixon is arranging the preliminary organization in the city for the million-dollar drive. He is a very active and capable man, and will be the driving force in the type which will drive through all obstacles to success.

KINGSTON HERE IS DEAD. Lieut. Wm. Harriet died at Kingston of pneumonia. He was born in May, 1878, as sergeant-at-arms at the 2nd Battalion. After being a member of the 1st Battalion, he was transferred to the 2nd Battalion, where he was killed in action on the 1st of July, 1915.

MORE WORKERS NEEDED. Calls for assistance upon the local volunteer organization continue with a more rapidity than can be attended to. Everywhere people are being asked with the limited number of workers available. Sanitary Inspector Wills is finding many families in urgent need of nursing care. Just this morning he is finding many families known as "Society Ladies" who are unable to care for their families and need children being left at home. Health and other organizations are being furnished with families every day.

Spanish Influenza Strikes Suddenly

Pneumonia Often Results—Victims Seized With Warning Making Precaution Doubtly Necessary

Much of the difficulty experienced by health authorities in checking the spread of the Spanish influenza lies in the fact that it strikes its victims without warning.

Although State and Federal authorities are taking every possible precaution in their effort to keep the spread of the epidemic, the disease in many sections of the country has gotten out of control and is claiming many victims by the thousands.

It is universally agreed by all well informed persons that the most prevalent cause to get the system in the most possible physical condition in order to be able to throw off the infection. As has been previously stated, it is possible to prevent the powers of resistance of the human system so as to catch the virus of the disease without not experiencing Spanish influenza.

As a powerful reconstructive tonic and system builder, Tanhul is essential. This is a statement of fact and is fully supported by recognized authorities. According to the reference works, including the United States Dispensary, Encyclopedia Britannica and medical text books used in the school of medicine, the principal ingredients of Tanhul possess the most valuable tonic properties known to science.

This statement is further borne out by the fact that millions of persons who have actually taken Tanhul have benefited to an extraordinary merit as a restorative.

Tanhul restores vitality to the weak and run-down system by enabling every organ of the body to perform its proper function in its own way. It creates a healthy appetite for good nourishing food, and is an ideal strengthening tonic for persons who are in a run-down condition and who are suffering from the after-effects of influenza, grippe or bronchial infection.

"Tanhul is sold in Belleville by O'Brien's Drug Store, in Toronto by J. H. Dickey, in Montreal by W. J. Malley, in Stirling by J. R. Horton, in Frankford by W. L. Leitner, in London by J. C. Vane, in Marysville by T. F. McAlpin, in Ormsby by J. A. Campbell, and in Thunder Bay by J. H. Brinkley."

"THROW THE MONEY AWAY" Editor of The Inquirer: "Dear Sir:—On reading 'Taxpayer's' letter, which appeared in your issue of the 20th, I was surprised to find to read that he had actually paid the taxes on the far side of the year. The fact is, I am a taxpayer and have the bill coming around now tippling the taxes."

I desire in any way to pay my taxes, but my objection is to the way in which they are levied. It is to invest this Y.M.C.A. \$5000 grant into various things, but I am not at all sure that the money will be used for the purpose for which it was intended. They will not only put off paying the taxes, but they will also put off paying the taxes.

It will save my expense and trouble when you want to make a large sum of money as well, with my mind a little more at ease, to know that I am virtually throwing the money away. With our tax rates, I am sure that I can save 25¢ on the dollar if it becomes necessary to practice economical living.

Music Maintains Morale

In these trying days of war and sickness music is the home of its unacknowledged value as a power to rally our courage and our spirit of determination to a word of maintenance morale. To make a faithful and accomplished musician in five minutes' time out of a person who likes music, irrespective of whether or not that person knows a "flat" from a "sharp" or a "bass" from a "treble" is the mission of the LINDSAY Player-Piano in the home. There is it!

A LINDSAY PLAYER PIANO

here, among the many which can be seen on our floor, which will just tell you as regards to style and finish. As to quality—material, workmanship, (tune-value, etc.)—we invite the fullest comparison between the LINDSAY and any other on the market. On our floor can be seen many makes of Player-Piano, and a visit will give you the opportunity to look into the merit of them all.

LINDSAY Player-Piano is priced from \$100 upwards. Your "victim" piano has a cash value in the purchase of a LINDSAY, and the balance can be paid part cash and part in convenient monthly payments over the illustrated LINDSAY Catalogue.

One Price Only—Cash or Credit.

FOGHORN FERNANDO

He Found His Vocation

By EDWARD BOLSTWICK
Copyright by Frank A. Munsey Co.

As if the sky had mysteriously changed hue, Foghorn Fernando appeared for the first time in the village of Dookness one morning about a clock and demanded admission to the Pacific hotel. At that hour the sky was usually discharging the plump raindrops of a tropical thunder shower.

Over the breakfast table Colonel Hoppie, the landlady, described to his guests the stranger's advent.

"I'll come to a dinner invitation from Los Angeles, suggested, 'let us not enter into this person,' and they went to the many contract to lapped the new arrival.

He was leaning against a curt wall and getting ready at Hoppie's apartment of music as they found in their room. Cross examined, he gave the name of Fernando. He sought employment.

"I'll come to a dinner invitation from Los Angeles, suggested, 'let us not enter into this person,' and they went to the many contract to lapped the new arrival.

"How, in truth?" asked Fernando. "I'll come to a dinner invitation from Los Angeles, suggested, 'let us not enter into this person,' and they went to the many contract to lapped the new arrival.

Canada is receiving only just enough sugar for her actual needs! There is no surplus for wastage.

First, all waste of sugar must cease; second, wherever possible, Corn Syrup must be used as an alternative for sugar.

You will discover a real economy, and a delicious addition to your household supplies if you

Here are a few suggested ways to use CROWN BRAND or LILY WHITE Corn Syrup to give to dishes a finer flavour than sugar gives:

Use CROWN BRAND Corn Syrup as a Sauce on Puddings.

Use LILY WHITE instead of Sugar in Cakes.

Use either brand in Coconut or other Puddings.

Use LILY WHITE in making Marmalades, Jams and in all Stewed Fruits.

A great many recipes are improved by using half sugar and half Corn Syrup.

Buy a can of LILY WHITE or CROWN BRAND Corn Syrup today and become acquainted with their great possibilities.

Sold by grocers everywhere in 2 1/2, 5, 10 and 20 lb. tins.

The Brand is Important!

Real Corn Syrup is GOOD—very good! If your experience tells you otherwise it is because you have not tasted the genuine, which is produced from the most nutritious part of the Corn by wholesome and scientific processes.

Remember the brands, LILY WHITE and CROWN BRAND, and insist on getting them, for purity, economy and flavor.

THE TEMPTING OF PAUL CHESTER.

BY
ALICE AND CLAUDE ASKEW
AUTHORS OF "THE STOLMATE"

"Paul? We are passing," interrupted Floe, impatiently. "Hush! you're making me feel like a fool."

"There was no mistake in the letter," said the girl, looking at her watch. "I want to know the truth," declared Susan, glancing first at her mother and then at her father in help.

trillion, born of lust and of passion. "I don't have her," she said as Paul doesn't love her."

"The country looked very dry," for the covering of snow—very low, very cold.

"All at once, however, to her surprise, Floe noticed a stationery fly making its way and followed it up the house. She was so sure of it that she could not possibly be mistaken in the matter of the Christmas Eve, an unexpected and surprised guest.

"The man still standing by the window, her beautiful little face wearing a strangely haunted expression, when the drawing room, where Floe was sitting by the fire, as he approached her, she saw the man's face. "Mr. Robert Temple,"

Canada CAN and WILL

ON July 31, 1918, Canadians had on deposit in banks more than a billion five hundred million dollars—that was \$160,000,000 more than was on deposit on the same date in 1917.

And, in the meantime, Canadians had invested \$425,000,000 in the Victory Loan 1917. Besides that they had bought \$60,000,000 worth of provincial and municipal bonds.

So the people of Canada during the past year have accumulated \$485,000,000 in bonds and over \$160,000,000 in cash more than they had on July 31, 1917. That represents concrete accumulated wealth.

Canada is to-day the richest country in the world, per capita.

Her war debt per capita is lower than that of any other fighting nation.

So Canada undoubtedly has the ability to oversubscribe the Victory Loan 1918.

And Canada must manfully and loyally support the Victory Loan 1918, because the national safety, the national honor and the prosperity of the country are at stake.

Canada's business prosperity is necessary to the maintenance of Canada's war efficiency.

Get ready to oversubscribe the Victory Loan.

Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer to **INSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.**

An employer who is charged with having a deserter in his employ must be able to prove **THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION** at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

"186. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for military service, imposed upon him by the Act or Regulations, or any provision thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that **THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE MAN EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION**, and that it was reasonably established to his satisfaction by his inspection of the papers that the man was not a deserter or absent from the force without leave or in default in respect of any of the obligations or requirements imposed upon him by the Act or Regulations."

Lord Wellesley Now In New York

"George Wellesley, N. Y. C." was a modest signature on the King Road Hotel register, at Toronto on Sunday which failed to carry to its full extent the fact that Lord George Wellesley, M. C., great-grandson of the "Iron Duke" of Wellington, and fourth son of the present Duke of Wellington, was a passing stranger within the gates, for he returned to New York within twenty-four hours of his departure therefrom, says the Toronto Star. Lord George, who was formerly a captain in the Grenadier Guards, transferred after his war to the air force, in which he has worthily upheld the honor of his lineage. He was one of the first to go down from Dover to France, and has since then seen many active parties on the western front, in Egypt and in Baghdad. A typical Canadian in his six-foot six-inch height, he is also typically British in his reticence, for he declines to be interviewed, definitely if most consistently. Lord George was married in April of last year, his wife being a charming Englishwoman of Irish lineage, the Lady Louisa Norton. Lord Wellesley, who was the widow of His Lordship's brother, the late Lord Richard Wellesley, last season Lord Wellesley was commander of Rathlin and Mohawk Aviation Camps.

SHORES STREAM WITH SOPHIA DEAD

JENEAU, Alaska, Oct. 29.—The death of the young wife of the late Lord Wellesley is a sad story with local people, according to wireless messages received here from across the water, news that when the vessel went down. A heavy storm from the west had driven the vessel from getting to the land.

Lord Wellesley was brought here yesterday. They were identified as follows:

A. W. Kendall, Mrs. H. M. Bridge, Amy Hall, J. R. Young, Edward G. Washburn, Harry A. Bathurst, Henry Bradley, Henry B. Perkins, Gen. W. Booth, Capt. F. Thorne. No word of any survivors has reached here. Governor Rigger, of Alaska, who is in Yenik, Chukchi where the Princess Sophia went down, has taken personal command of the search party. Their twenty-five results were reported yesterday morning for details.

At this time through Alaska, order by Governor Rigger for details.

Wellesley on the last brought here yesterday was stopped at ten minutes in water. This was believed to indicate that the vessel went down at about ten minutes. Further news was sent on Friday night.

If this boy were your boy

If you had a boy in France to-day, you would make your purchase of Victory Bonds large enough to represent a real personal sacrifice.

You would be thinking of that lad—out in the hell on earth that is No Man's Land—cheerfully offering his life for Freedom's cause.

And you would do your best to save that life.

You would 'help—with all your might—to provide the money that will shorten the war and reduce the cost of Victory, in human lives.

You would 'buy all the Victory Bonds you could possibly find the money for—and you would find it by stinting yourself down to the barest necessities of life.

Come—share in the glory of those whose lads are in France to-day. Dig deep into your income—as the kin of soldiers dig into theirs—to buy the Victory Bonds that will carry our armies on to Victory, and give us back our boys.

Issued by Canada's Victory Loan Committee in cooperation with the Board of Finance of the Dominion of Canada.
